INTRODUCTION

This is Muhammad Kamran. I am from Pakistan. I have worked as a software engineer back in my country. I have worked with numerous web technologies. PHP Laravel, JavaScript, WordPress, Shopify and React are the my core skills. I have helped clients around the world grow their businesses by building and optimising their online presence. I am eager to learn AI and ML in Future.

Currently, I am doing Masters in Applied Information Systems in Japan. My area of research is Traffic Simulations and Psychology.
